

Promoting Competency Report

The Texas Board of Nursing's educational offerings and Continuing Nursing Education (CNE) courses provide nurses with an opportunity to increase their knowledge of the laws, rules and regulations that affect their nursing practice and contribute to their continuing competency. These offerings and CNE courses are a high priority for Board Staff and support the Board's mission of patient safety.

Board staff carefully review all course evaluations in order to determine if learning objectives are being met as well making course adjustments based on learner's feedback. All course evaluations demonstrated that course objectives were met and as a result of learner feedback, broken hyperlinks in one presentation were corrected.
